

GOOD PEOPLE MAKE GREAT THINGS HAPPEN.

Only a few minutes after Windsor Women in Construction completed the lounge makeover at Hiatus House a mother sat with her sons on the soft couches enjoying some quiet time together .

These days Hiatus House is a very busy place. Beds are full and space is limited. It is because of this, that it is so important that women have a quiet, comfortable place that they can enjoy some quiet moments by themselves or with their children. Windsor Women In Construction made this happen in a remarkable way on December 20, 2012. This group of women redecorated three shelter bedrooms, donated Christmas gifts for the residents and completely furnished and decorated a lounge area in the shelter. This donation was so impressive, The Windsor Star, dedicated nearly a full page article on December 21st paper.

Thank you so much Windsor Women in Construction for this huge contribution to our clients. It is organizations like yours that make our community a such great place.

Breaking the cycle of domestic violence, together.
